

Project Engineer

R.H. Batterman and Co., Inc. (Batterman) is adding to our Team due to company growth and the implementation of our company strategic plan. We are a 102-year-old multi-discipline firm with a successful history as a leader in Civil, Transportation and Municipal Engineering industries. Batterman has an exciting opportunity for the right candidate!

As part of our growing team, the Project Engineer will assist in the design and construction management of various transportation, site development, infrastructure, and facility improvement projects. Tasks will include participating in design, development of reports, plans, details, and other engineering documents related to various projects using AutoCAD Civil 3D and other civil design software. The Project Engineer will receive guidance and mentorship from Senior Engineer or Project Manager.

To be successful in this role, you will need:

- Bachelor's Degree in Civil Engineering or related field and 2-6 years of Civil Engineering work experience
- Wisconsin Professional Engineering (PE) license (or ability to get one as soon as eligible)
- Ability to perform design engineering tasks including, but not limited to, grading, utility design, drainage and storm water management design and analysis, erosion control, report writing, specification, bid document and contract development
- Ability to work on multiple projects concurrently while completing projects within agreed-to time and budget constraints
- Knowledge of regulatory agency permitting requirements and processes
- Experience with Microsoft Office, AutoCAD Civil 3D, HEC-RAS, WinSLAMM and other design suite software products
- Strong organizational skills with the ability to communicate clearly and effectively in writing and verbally

In exchange for your talents, Batterman offers competitive compensation and a generous benefits package, including health/dental and vision insurance, L/S Disability insurance, company matching retirement and paid time off. We are committed to using the latest technology and equipment available to our industry. We offer a comfortable office environment and will provide the successful candidate with opportunities for advancement in our growing company.

We are proudly located in Beloit, Wisconsin, a community that is experiencing a true renaissance of redevelopment along the banks of the Rock River. We are a full-service engineering, planning and land surveying firm working with public and private sector clients throughout Wisconsin and Northern Illinois.
